

FORESIGHT LAB

Shape the Future. Lead the Way.

“

The greatest risk in a rapidly changing world may not be the uncertainty of the future, but *the assumptions we carry forward from the past.*

Foresight gives us the discipline to *question established thinking, anticipate change, and make more informed decisions amid uncertainty.* ”

Dr. ALLAN MACKENZIE

Assistant Professor, Leadership & Management

McMaster University

Dr. Allan MacKenzie is an Assistant Professor of Leadership and Management at McMaster University.

His career spans corporate leadership, management consulting, and academia, working with organizations from entrepreneurial ventures to Fortune 500 companies to help leaders navigate change, build capabilities, and turn strategy into action.

He collaborates with progressive global business leaders on restorative workplace design and organizational enablers that boost engagement, well-being, and effectiveness.

A nationally award-winning educator and published scholar in innovative engineering management teaching, Allan is currently reimagining student assessment in an AI-enabled world through eCampusOntario's Strategic Foresight Program, emphasizing critical thinking, strategic judgment, and genuine understanding.
